# Remember The Fifty States by William Clark © 2012 William Clark

**Alabama** and **Alaska** are the first of fifty states.  
**Arizona** and old **Arkansas** are two of fifty greats. (*Arkensaw*)  
**California**, **Colorado** and **Connecticut** as well,  
And **Delaware** and **Florida** all make the numbers swell.

There's **Georgia**, **Hawaii** too, and lengthy **Idaho**,  
With **Illinois** and **Indiana**, thirty-six to go.  
Now, **Iowa** state and **Kansas** state, that adds another two,  
Plus **Kentucky**, full of horses, and **Louisiana** blue.

And so to states that start with 'M', they total up to eight,  
We've got to hurry on with this, we can't afford to wait.  
So start with **Maine** and **Maryland** and **Massachusetts** too.  
Add **Michigan**, and **Minnesota**, till your tongue turns blue.

Then **Mississippi**, that makes six, **Missouri**, nearly done,  
And so we reach **Montana** state, and that's the final one.  
But now we've got another eight, and they all start with 'N'.  
There's **Nebraska**, and **Nevada**, oh I'm glad there isn't ten!

**New Hampshire** and **New Jersey** states, that takes us up to four;  
**New Mexico**, and then **New York**, and still we're seeing more!  
**North Carolina**... nearly done, then **North Dakota** state,  
That means we've finished all the 'Ns', and ain't that really great!

There's only three that start with 'O', **Ohio** is the first,  
The second, **Oklahoma**, then it's – **Oregon** or burst.  
**Pennsylvania**, **Rhode Island** state, and **South Carolina** 'S',  
With **South Dakota** much the same... so that's them both, I guess.

Then **Tennessee** and **Texas** state are two that start with 'T'  
While **Utah** is the only 'U', as you can plainly see.  
Now **Vermont**, and old **Virginia** states both have a victory 'V',  
So now we're hunting 'Ws' – cos that's the way it be!

There's **Washington** and **West Virginia**, **Wisconsin**, and one more,  
So we can say with 'Ws' -- **Wyoming** makes it four.  
So that's the fifty states, my friend, you've learned them off by heart,  
But if you don't remember one – please, go back to the start.

## Remember The Fifty States by William Clark

..... and ..... are the first of fifty states.  
..... and old ..... are two of fifty greats.  
....., ..... and ..... as well,  
And ..... and ..... all make the numbers swell.

There's ....., ..... too, and lengthy  
.....,  
With ..... and ....., thirty-six to go.  
Now, ..... state and ..... state, that adds another two,  
Plus ..... full of horses, and ....., blue.

And so to states that start with 'M', they total up to eight,  
We've got to hurry on with this, we can't afford to wait.  
So start with ..... and ..... and  
..... too.  
Add ....., and ....., till your tongue turns blue.

Then ....., that makes six, ....., nearly done,  
And so we reach ..... state, and that's the final one.  
But now we've got another eight, and they all start with 'N'.  
There's ....., and ....., oh I'm glad there isn't ten!

.....and .....states, that takes us up to four;  
....., and then ....., and still we're seeing more!  
..... nearly done, then ..... state,  
That means we've finished all the 'Ns', and ain't that really great!

There's only three that start with 'O', ..... is the first,  
The second, ....., then it's – ..... or burst.  
....., ..... and ..... 'S',  
With ..... much the same... so that's them both, I guess.

Then ..... and ..... state are two that start with 'T'  
While ..... is the only 'U', as you can plainly see.  
Now ..... and old ..... states both have a victory 'V',  
So now we're hunting 'Ws' – cos that's the way it be!

There's ..... and .....,  
....., and one more,  
So we can say with 'Ws' -- ..... makes it four.  
So that's the fifty states, my friend, you've learned them off by heart,  
But if you don't remember one – please, go back to the start.
